Sakib Ahmed

Frontend Developer (AI-Powered Apps)

Dinajpur, Bangladesh +8801738588956 sakib.dev07@gmail.com

Protfolio Github Linkedin

Summary

"As a Frontend Developer with fundamental backend knowledge, I want to start my career as a **Technical Support / Application Support Engineer**. I am to use my understanding of software logic, databases, and troubleshooting skills to bridge the gap between users and developers, while growing into a full-time software developer in the future."
